

Toothbeary visited Twickenham Park Day Nursery

Here at Toothbeary Dental Practice, we believe that oral health education is vital in helping to prevent dental decay in our local community.

Toothbeary's Dental Therapist Athene and Dental Nurse Mihaela, recently visited Bright Horizons Nursery and Twickenham Park nursery, to provide informative talks to the children and staff on 'Dental Health and Diet'.

It was a fun, relaxed and but most importantly educational trip. To remember our visit and promote good oral hygiene habits at home, each child received a gift bag, with a new toothbrush and floss to take home.
